

STONE AGE TO THE IRON AGE

20,000 BC TO 43 AD

In art we will get messy and create our own cave paintings using our hands-just like cave people did!

During this topic we will answer the following questions...

Why were these time periods given these names?

What happened in Prehistoric Britain?

How do we know about this time?

What artefacts have been found and where?

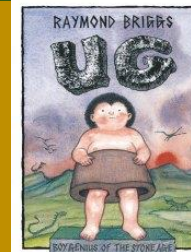

How did prehistoric humans survive and live?

How was their lifestyle different to ours?

Year 3

This half term in year 3 we will be learning about early man throughout the Stone Age, Bronze Age and Iron Age.

In science we are learning about rocks and soils and we will explore the three different types of rocks and be able to explain how fossils are made.

We will be reading Ug and Stone Age Boy to inspire a variety of writing, such as, descriptions, recounts and sense poems.
