

## Literacy

We will be reading 'Skellig' by David Almond as well as watching the film adaptation. Using this quality text, we will be writing setting descriptions, instructions for looking after a special creature and a newspaper article.

# Year 6

## Topic

6 will be studying North America. This will include detailed studies of maps, populations, vegetation, native animals, climates and economics of this area. Children will be conducting their own research and presenting information in various formats throughout this topic.

## Maths

Year 6 will focus on decimals and percentages and how they relate to fractions. We will then move onto algebra.

## Science

In science, we will be learning about evolution and inheritance. We will learn about the theory of evolution as well as discussing other creation theories.

## ICT

In ICT, year 6 will be using Lego and Scratch to develop their programming skills.

## DT

We will be cooking a variety of dishes from North American countries and using this experience to review the flavours and textures as well as write a menu.
