

Theme: Who Are We?

Unit of inquiry:

The work that charities do can change a person's life.

We will be following different lines of inquiry to find out about:

- 1. What are the charitable organisations around the world and what do they do?*
- 2. What do different religions teach about charity?*
- 3. What are the statistics around homelessness in the UK?*
- 4. How can everyday people help charities?*
- 5. Where should reform happen or governments change policy?*

Cross Curricular Links: maths - statistics, money for bake sale; RE - charity in religion; literacy - persuasive writing; science - health and well-being; PSHE - physical and emotional health, social conscience and citizenship.
